**Directions:**

1. These are cause and effect cards for *How a Seed Grows*. Read the cards.
2. Cut out the cause and effect cards.
3. Mix the cards up then place them face down in front of you.
4. Turn two cards over. If the cause and effect are a match, place them on your sorting mat. If they don't match flip them back over.
5. Play until you find all the matches.
6. Hint: The cards with a square are cause cards. The cards with a circle are effect cards.

A seed is a little plant because

it has not started to grow.

You won't be able to see bean seeds growing right away because

it starts growing under the soil.

A bean seed becomes a bean plant in just a few weeks because

it grows very fast.

A seed will grow into a plant when

you provide it with soil, water, and sunlight.
